For Sale:

Trijicon Rugged Miniature Reflex (RMR) Sight Amber Color - 12 MOA Dual-illumination (NO Batteries Required) Asking \$300 ONO

Precision and accuracy with any style or caliber. Battery free sight, featuring Trijicon fiber optics and tritium. New easy-to-use adjusters with audible clicks allow for quick windage and elevation adjustments. Housed

in rugged forged aluminum, the RMR is extremely tough yet lightweight. It is 12 MOA, dual-illuminated. I had it on my Smith & Wesson M&P PRO CORE but I've decided to go back to my iron sights for Competitions. It can easily be mounted for hunting. It works perfectly! Put the dot on the target and pull the trigger.
